

Sean de Groot

Web Developer

About

A web developer who has a passion for progressive technology, and well-designed products that provide meaningful solutions. My past work experience focused on improving a complex irrigation system through scalable components, followed by an intricate plan. With my technical and problem-solving skills, I can provide a product that meets the consumers' expectations.

Skills

HTML5	React	Git Collaboration	Web Accessibility
CSS3	jQuery	API Integrations	SEO Practices
JavaScript	Firebase	Photoshop Conversions	Cross-Browser Testing
